Objective	<p>To obtain a internship or full-time job related to mobile development, backend development, data mining, deep learning or full stack.</p> <p>(Anticipated Graduation Time June, 2017)</p>
Profile	<p>Experienced in Mobile and Backend Development</p> <p>Experienced in Data Mining</p> <p>Starter of Deep Learning</p> <p>Enjoy being as a Geek&amp; Hacker</p>
Experience	<p><b>As an Intern</b></p> <p>Full Stack Developer(Intern), Beijing Jindi Technologies Co. Ltd – 2015.9-present</p> <p>Deep Learning(Image Classification) : Verification Code Recognition</p> <p>Tianyancha Backend Data Mining</p> <p>Tianyancha Backend Log Analyse(Anti-Clawer)</p> <p>Tianyancha iOS&amp; Android Mobile client development, including UI, Network&amp; Security etc</p> <p>Contributed a Software Copyright Registration</p> <p><b>As an Entrepreneur</b></p> <p>School High Project(Tech Team Leader) – 2016</p> <p>A project to make campus students' life easier and simpler, early focusing offering a platform to show all the info of dishes around school restaurants.</p> <p>Master of Phones Club(Founder&amp; the 1st Club President) – 2012</p> <p>A school club which gathers all cell phone lovers together to communicate experiences in utilising android system, help other students repair their cell phone's software problems.</p> <p><b>As a Free Lancer</b></p> <p>Qiyuan Kbar Cloud Community(iOS) – 2016</p> <p>A online community platform including chatting, moments, enterprise management etc.</p> <p>Ease Car Charger(iOS) – 2016</p> <p>A application simplify the process of finding a car electronic charger.</p> <p>Rang Sha(iOS) – 2015</p> <p>A whole new platform for job seekers in which they can chat with companies' HR directly.</p> <p>Eheres Medicine Platform(iOS) – 2015</p> <p>A highly customisable medicine online-sale platform.</p> <p>Auto Online(iOS) – 2015</p> <p>A remote car positioning management client.</p>

Weilan Media Competitive Platform(Android& Backend) – 2014

An outdoor advertisements management client shows where the advertisements locate.

### As a Geek& Hacker

Self-Motivated Learning New Things including:

Swift, Scala, Python, Deep Learning, React Native, Javascript etc.

Face Mosaic(Android) – 2013

A Android application that able to make mosaic photos using users' photo library.

TYUT Students Helper(Android) – 2012

A Android client that help students in Taiyuan University of Technology to query their grades and base information easily, in stead of using browsers.

Water Card(RFID) – 2012

Cracked the water RFID card algorithm in my college.

New Horizon English Textbook Helper(Android) – 2011

A Android client that help students query the *New Horizon English* Textbook's answer.

### As a Student

Android-based Forest Fire Monitor System(Android) – 2013

A Android client monitoring forest fire(as a part of National Innovation Experiment Program for University Students).

## Qualification

Second Prize of The National Olympiad in Informatics in Provinces(NOIP) - 2010

Software Design Engineer - Qualification Certificate of Computer and Software Technology Proficiency(aka RuanKao) - 2012

Programmer - Qualification Certificate of Computer and Software Technology Proficiency - 2011

College English Test(CET) Band 6 - Score 518 - 2012

College English Test Band 4 - Score 580 - 2011

## Education

Beijing Jiaotong University – Master of Software Engineering, 2015-2017

Taiyuan University of Technology - Bachelor of Software Engineering, 2011-2015

IT Heima iOS Train Program, Full Time, March,2015 - August, 2015

## Skills

Mobile Development(iOS, Android), experienced in Java, Objective-C and Swift  
Backend Development, experienced in Java, Scala, NodeJS, MySQL, Redis, MongoDB and Python

Experienced in using and maintaining Unix-like System

Able to train a verification image recogniser using Caffe
